Subject:

Additional data plate inside Micro, Milli, Mini and Solid

The data plate on Micro, Milli, Mini and Solid is an adhesive sticker, which is sensitive to scratches.

So after some time in use, the information on the dataplate can be hard to read.

In order to help identifying the pump at service, an additional data plate has been added inside the pumptop.

Data plate outside the pumptop

Data plate inside the pumptop

Pumps concerned:

- Micro, 8121.211
- Milli, 8125.230
- Mini, 8122.211
- Solid, 8123.281

Time for change:

Delivered on pumps with serial numbers starting from 1650001 (=from 2016-07-07)
