

Dear Distributor,

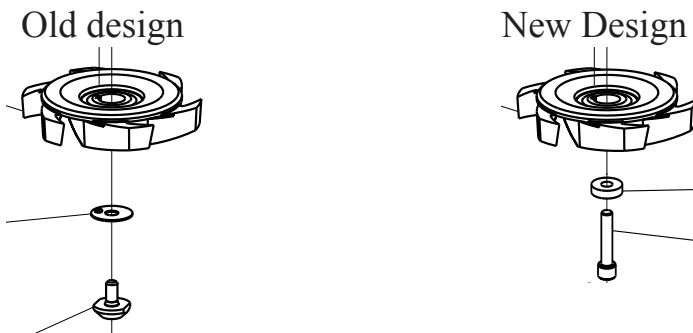

From beginning of September 2006 the impeller screw and washer have been changed for:

- **Proline** Minette-Major, Midi
- **MSHA** Minex-Major, Master H, Midi

For Minex Proline this change was made in beginning of March 2006.

The new screw and the old washer are not compatible with each other or vice versa. Therefore both screw and washer have to be changed at the same time. The old screw (140171) and washer (133147) will be available as spare parts.

Note: The new screw is prefabricated with loctite, after dismantling it must be treated with loctite before reassembling.

Part no.	Old design		New design	
	Washer	Screw	Washer	Screw
<b>Proline pump</b> Minex, Minette, Minor, Major, Midi	140169	140171	133147	133148
<b>MSHA pump</b> Minex, Minette, Minor, Major, Master H, Midi	140169	140171	133147	133148

Yours sincerely,
