Subject New holder for level regulator			www.grindex.com

Dear Distributor,

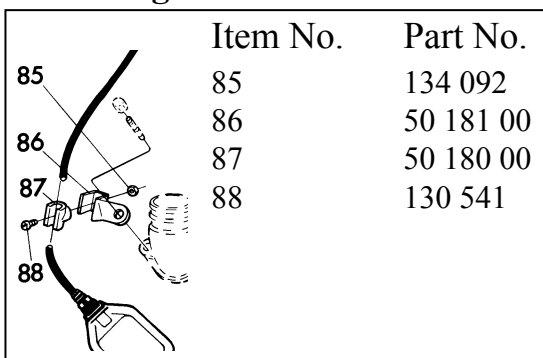

Since end of May 2006, a new holder for the level regulators has been introduced.

Reason of change

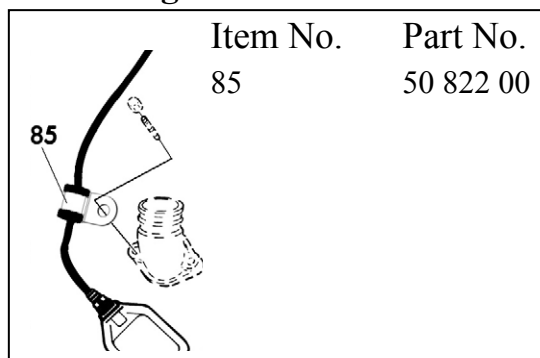

The production of holder (item No. 87) has been stopped from supplier.

In the new design one holder replaces item 85, 86, 87 and 88 from the old design shown below. Holder 5018000 (item No. 87) and metal sheet 5018100 (item No. 86) are obsolete. Parts (item No. 85 and 88) will be available as spare parts.

Old design

New design

Yours sincerely,

Ola Hällgren
Technical Manager
